A Pledge of Solidarity for
The Families Victimized By
Israeli Settlers in The Old City

The Palestinian Committee of Women Workers in Jerusalem strongly protest the acts of vandalism committed by the Zionist colonist during last week against the Arab inhabitants of Al Khaldia quarter in the Old City of Jerusalem . The repeated arson acts against Arab houses and shops in Al Khaldia quarter by the neighbouring Israeli settlers forced innocent men, women and children to leave their homes and take shelter under the arcades of the streets of the Old City.

The attacks still go on unheeded by Israeli police and armed forces and the victimized families still lack official safeconduct back to their homes. We therefore have reason to believe that the attacks by settlers concur with the Israeli official policy, to coerce the Palestinian inhabitants to vacate their homes in the Old City.

We hereby affirm our solidarity with the families of Al Khaldia quarter and dwelling in their homes. We also affirm their right to begin restoration works immediately.

We also call for the closing down of all the settler's outposts in the Agabat Al Khaldia quarter including the Yeshiva school (Brachat Avraham).

We appeal to local and foreign public opinion to request a halt to the violation by the Israeli settlers of the basic human rights of the Palestinians to live peacefully in their homes .
