- Conducting Baseline Studies for the Refugee Population(Target population of the Projects) which included:

- * KAP Study regarding Women Health and Family Planning,
- * Anemia among Pregnant ,Prevalence ,severity and implementation of UNRWA's Anemia Control Strategy.
- * Prevalence of Risk Pregnancy and assessment of the scoring and referral system.
- *Study of the quality of care of the maternal health services.

- Coordinating with NGO's and PNA to standardize the services , policies and the quality of care of the maternal health and Family Planning programs among the different sectors .

- Strengthening the program by :

- * Training of the staff
- *Producing community oriented IEC materials
- *Equipping and supplying the Health Centers

- Reaching to the women in the grassroots giving them seminars about Reproductive Health including Family Planning

- Influencing UNRWA's System in pushing for a better policies and better provision of Reproductive health at all Health Centers over the West Bank and Gaza.

After evaluating these two projects I was recruited by UNRWA immediately and till present as the Family Health Officer for the West Bank Field for the last 18 months. This division includes Maternal Health , Child Health, School Health and Family Planning Program during this period I achieved the following :

During my Activities A follow up was conducted on the following :
