## "Najd", Adel Zawati, a Paper Clipping

Handwritten in Arabic, this paper clipping documents the name of "Najd", a depopulated village northeast of Gaza, southwest of Burayr, and east of Beit Hanoun with roads connecting it with the Coastal Plain and Gaza. The closest village nearby is the village of Simsim, one kilometre away. In 1948, Zionists occupied and displaced the village and established the colonies of "Abim" and "Sidirot".
