"El-Haditha", 'Ādel az-Zawaty, a Paper Clipping

Handwritten in Arabic, this paper clipping documents the name of "El-Haditha", a village in al-Ramleh depopulated on 12 July 1948 during Operation Danny which captured Lod and al-Ramleh. Two months after its invasion, on 14 September 1948, David Ben-Gurion, Former Prime Minister of Israel, ordered that it be levelled (due to the few soldiers available to invade the area) and he even asked a designated ministerial committee held merely for the destruction of villages to supervise the operation.
