A Photograph of the Acre Castle Yard in the 1990s

Taken in the 1990s, this photograph shows Acre Castle yard which Ahmed Pasha al-Jazzar completed constructing and was built on the foundations of the Crusader castle that was built during the Crusader rule of the city. The castle has many names including Acre Castle, Acre prison castle and Acre central prison, and during the British mandate period, the British used it as a central prison. It is worth noting that in this prison, the British Mandate forces executed the three Palestinian youths: Mohammad Jamjoom, Ata al-Zeer and Fuad Hjazzy after they participated in the al-Buraq Revolution in 1929.
