Dearest Lois -

Sorry for being late, my final
Exam. in Philo is in the
27 and 29/6. Write !!! Lois!
Love W.

I received your letter of May 1, and sorry that you did not say me "Bon fête", it seems that you don't know anything about May 1, or you forgot of what (matter) national I am!

About studying Law, I think a man, no matter how emotional he is, a man can more easily be unemotional and objective. Especially me, because I can more easily repress my emotions and feelings and start to think.

And now about Israel and Lawyers, I think that the "Black race" of Israel need Lawyers no less than Doctors and Engineers or any kind of intellectuals.

I cannot take another final exam. because it was the last in the history of the V faculty. I have to take some courses another time if I want to correct the situation. I see it difficult to me + it is useless. Studying Law takes me 3 years not 5 because I have the B.A. degree. Besides, my dearest

I have not decided yet! It depends on the job. Working where you had suggested is impossible; from my point of view it is a treason, it is very silly +.

I am against that thing with all my forces till the bases. The idea that I am helping my people in working there is very silly + I wonder if you mean it - besides it hurted me that till now you don't understand me + ⁽ⁱⁿ⁾ Once we spoke in front of you in your apartment about ~~the~~ such things.

Lois my dearest, it is the time that you try to understand me and the ugly face of (...), I want to offer you a nice one, please, please Lois help me in healing the scars! Help me in getting out the "Ugly American".

Lois, it is not the way your uncle and aunt Bass said - that they will lose a Jewish girl - You will be still, I mean you will remain

I am very happy you told me about such deep things as the "drawing of the cell" I wish you tell me more and more from your deep inside! It does not matter to me at all if you tell your aunt or uncle Willard about Mahid, even if you read them his letters ... And tell me what they say about that
